AERIAL LIFTS & CRANES

HAWK EQUIPMENT CORPORATION

With its self-stowing grapple and 8,300 lb. maximum capacity, the new Magnum 095L brings new productivity to your fleet. It reduces set-up and knock-down time, while making the most of working hours. This articulating crane offers a vertical reach of 35 feet with a lifting capacity of 8,300 lbs. at 8'4", 4,000 lbs. at 17' and 3,000 lbs at 23'! The grapple is completely self-stowing on the crane and the crane may be mounted on a variety of chassis/body configurations, including chip dump trucks. We have complete turnkey systems and other knuckleblooms in stock, and are authorized dealers of Altec Environmental Products, and manufacturers of the Hawk Stump grinder.

CHIPPERS & ACCESSORIES

BANDIT INDUSTRIES

Bandit Industries recently unveiled a groundbreaking new line of hand-fed chippers: the 007XP series. Some of the most prominent improvements to the new line were to the drum-style chippers. All Bandit drum-style chippers have increased in-feed capacities and enlarged chipper openings, allowing them to more effectively dispose of larger and limbier material. With the introduction of their new line of chippers, Bandit also introduces a new 15-inch capacity disc-style chipper, the Model 255. In addition to enlarged chipper openings and capacities, Bandit has made more than two-dozen additional improvements to their chippers.

CHIPPERS & ACCESSORIES

DYNAMIC MANUFACTURING CORP.

All Dynamic chippers come equipped with the proven superiority of the patented Cone-Head cutting system. A minimum of 21 percent more efficient than cylindrical shaped drums, the Cone-Head design creates a slicing shearing action. This works exceptionally well in palm fronds and vines. Experience substantial fuel savings, labor savings and longer knife life while using less horsepower. And it's all because of the angle that the knife cuts the wood. With seven models to choose from and a variety of power options from 50 to 300 horsepower, there is a Cone-Head chipper that will meet your needs perfectly.

CHIPPERS & ACCESSORIES

VERMEER MANUFACTURING COMPANY

The Vermeer BC1500 hydraulically fed drum-style brush chipper is powered by a 125 hp (93 kW) diesel engine and processes material up to 15 inches (38 cm) in diameter. The unit comes standard with the patented SmartFeed system and lower feed stop bar. Dual 20-inch (51-cm) spring-tensioned vertical feed rollers slide in and out to assist with processing bent or forked material. A solid, precision-balanced 22.5-inch (57-cm) diameter cutting drum is equipped with two-double-sided 5-inch by 8-inch (13-cm x 20-cm) steel chipper knives.

More information on Vermeer products and services can be found on the company's Web site at www.vermeer.com

Please Circle Reader Service Number 181

CHIPPERS & ACCESSORIES

VERMEER MANUFACTURING COMPANY

The Vermeer BC1000XL brush chipper is powered by an 85 hp (63 kw) diesel engine that can cut through 12 inch (30 cm) diameter material with improved efficiency. The unit features one of the largest feed openings in its class. At 12 inches (30 cm) tall and 17 inches (43 cm) wide, the feed opening reduces the need to trim material before it is fed into the chipper. The BC1000XL comes standard with the patent-pending SmartFeed system that automatically senses feed roller jams and manipulates the material back and forth to reduce the need for manual feed control. A patented Vermeer lower feed stop bar enhances operator safety.

GROUND MATS

ALTURNAMATS, INC.

Alturnamats ground Protection Mats virtually eliminate ground restoration costs. Identified as the original black mats, Alturnamats are made of ½-inch-thick polyethylene, can withstand 60-ton loads and are guaranteed for six years. Ideal for such applications as golf courses, landscaping, tree care, cemeteries and a broad range of other applications, the mats virtually eliminate getting stuck in mud. Alturnamats are the perfect replacement for plywood, which warps, splinters and becomes waterlogged. New Turn-a-Links lock the mats together creating a continuous roadway or a large working platform. Also, Alturnamats introduces VersaMats, mats designed for both vehicle and foot traffic applications. Walk Mats feature a flat, slip-resistant tread that is safe to walk on without fear of turning an ankle – ideal for lawns and cemeteries.

LOG SPLITTERS

TIMBERWOLF MANUFACTURING CORPORATION

Timberwolf's "Back Saver" package has become a big hit with the pros – tree care companies, woodlot owners and loggers. The TW-6 wood splitter features an 18 hp Honda OHV engine, fast cycle times and user friendly design. Options include the log lift, table grate and 6-way wedge. The hydraulic log lift easily raises logs up to 500 pounds, while the table grate collects wood at splitter height for back-saving sorting and stacking. The 6-way wedge increases productivity. All three are made in the USA (Vermont) of the same high-quality components used in Timberwolf's heavy-duty commercial line of firewood processors.

Phone: 1-800-340-4386 for FREE information, or watch our videos online at www.timberwolfcorp.com/splitters.

MATERIALS HANDLING

PORTABLE WINCH COMPANY

The Portable Capstan Winch, powered by a 2.5 hp Honda 4-cycle engine, delivers 2,500 pounds of portable pulling power single line, and 5,000 pound when doubling the line, at speeds up to 40 ft/min, depending on load. The capstan winch uses synthetic, low-stretch rope instead of wire rope, allowing for unlimited rope length. The pulling power is constant, since there is no accumulation of rope on the drum. The winch is anchored with a sling (included) around a fixed object (such as a tree) or directly to a standard 1⅞-inch or 2-inch trailer ball, using the optional hitch plate. Portable Winch Co. sells a full range of accessories including rope, skidding cones, carabiners and cornerblocks.

PRUNING & HAND TOOLS

CORONA CLIPPER

Corona Clipper, Inc. is the premier manufacturer of superior, forged quality pruning and long-handle tools for the retail, consumer and professional markets, including hand pruners, shears, loppers, pruning saws, garden tools, shovels, rakes and wheelbarrows. Corona's reputation is built on classic design, handcrafted forged quality, and superior customer service. This reputation has made Corona America's first choice for more than 80 years. Corona was established in the late 1920s, manufacturing orange clippers in an old "Corona Foothill" packing house. In the early '30s, the company relocated to a larger facility and expanded the product line to include lemon clippers, grape shears, hand and pole pruners, and later loppers, hedge shears and grass shears. Corona's customer base includes professional landscape, irrigation, horticultural, agricultural, forestry, construction, maintenance and public works markets, as well as the consumer retail markets.

SAFETY

CERTIFIED TREECARE SAFETY PROFESSIONAL (CTSP)

Certified Treecare Safety Professional (CTSP) is an individual credential offered through the Tree Care Industry Association designed to improve worker safety within individual companies and across the tree care industry.

The CTSP program empowers arborists to develop and maintain a culture of safety within their organization and help eliminate work-related fatalities, injuries and illnesses as well as their associated costs. It also provides a rewarding career path for key employees, increasing their value to employers as it increases their own job satisfaction.

Join the ranks of leaders in tree care safety!

VERMEER MANUFACTURING COMPANY

Designed to boost productivity, the Vermeer SC852 stump cutter features increased cutting width, more power, and the ability to maneuver through tough ground conditions. Operators get increased cutting width because the cutter wheel moves away from the machine as the boom drops from the fully raised position. More power comes from an 85 hp (63 kW) turbocharged diesel engine capable of producing 224 ft-lbs (203 Nm) of torque at 1600 rpm. Features that give the machine higher traction in difficult ground conditions include full time four-wheel drive, differential locks, variable speed control and oscillating steering axles with 8 inches (20 cm) of wheel lift over obstacles.

More information on Vermeer products and services can be found on the company's Web site at www.vermeer.com

Please Circle Reader Service Number 183

VERMEER MANUFACTURING COMPANY

The Yellow Jacket™ cutting system from Vermeer features universal indexable carbide-tipped teeth, reversible pockets and offers easier maintenance. This cutting system offers two cutting edges on each tooth and provides more side pocket clearance. This limits pocket rubbing that can cause power loss and premature pocket wear. The operator simply loosens one nut and rotates the tooth for an almost new cutting surface. With two cutting edges on each tooth, the tooth and pocket are designed so the second edge is protected and clear of the primary wear area while cutting with the first edge. The Yellow Jacket system requires only three pocket styles and one tooth style to complete a cutter wheel setup.

More information on Vermeer products and services can be found on the company's Web site at www.vermeer.com.

TREE HEALTH PRODUCTS

VITAMIN INSTITUTE

"We never lose trees. Our jobs always look beautiful," SUPERthrive users routinely tell the Vitamin Institute at landscape contractors' conventions.
But those to whom SUPERthrive is news always acknowledge losses, perhaps estimating them at a 10 percent loss rate. Users also avoid wasted costs of labor for "babying" the others. And all 2,000 SUPERthrive dealers asked at trade shows said they knew that SUPERthrive even REVIVES trees and shrubs with as little as green under the bark. Although with no salesmen, SUPERthrive was already depended upon by the MAJORITY attending the FIRST convention of the Associated Landscape Contractors of America in 1961. California Arborist Association stated every arborist uses Superthrive.

TREE PROTECTION

PREFORMED LINE PRODUCTS

Labor saving, economical and strong – those are the benefits you get when you use the TREE-GRIP™ Dead-end for tree cabling installation. The TREE-GRIP Dead-end uses the field proven helical concept to grip the cable strand. The helical method ensures that the Published Rated Breaking Strength of the strand is achieved. Installation time is greatly reduced, saving time and labor cost.

Preformed Line Products

ARBORTECH

The new Arbortech UTV (Utility Tree Vehicle) is designed with many of the same great features as our Chip Box. These features include a wide, 96-inch floor, smooth body sides that provide great advertising space, a strong, durable galvanneal steel sectional floor and all rust-resistant galvanneal steel construction. Options include "I" and "L" toolboxes, ladder box with pruner shelf, rear belly box, ladder racks and more. Contact Arbortech for all your UTV and chip body needs. You will find an Arbortech plant in the Eastern, Central and Western Regions of the United States.

Arbortech, 3203 West Old Lincoln Way, Wooster, OH 44691
Phone: (330) 264-4266, Fax: (330) 264-0891

TRUCK & TRUCK ACCESSORES

ARBORTECH

The new Arbortech Chip Body has features designed with the professional Arborist in mind. This newly designed Chip Body includes:

- Wider ladder/pruner compartment to accommodate power pruners
- "L"-shaped tool storage compartment with rope hooks and adjustable shelves
- Smooth side panels for easier/larger decaling of logos
- Galvanneal steel sub floor, tailgate; steel side, front and roof panels

Contact Arbortech for all your chip body box needs. You will find an Arbortech plant in the Eastern, Central and Western Regions of the U.S.

WOOD PROCESSORS

BANDIT INDUSTRIES, INC.

Bandit's Color Critter II is a unique attachment that allows their Beast Recycler horizontal grinders to produce a high-quality mulch during the final grinding process. An oxidizing colorant is used to penetrate deep and cover rapidly. Two sets of spray nozzles discharge water to help colorant stick and oxidizing pigments spread. Final product exits the grinder fairly dry. The Color Critter II delivers precise control over the disbursement of pigments to ensure high-quality colored mulch at the lowest possible cost. The operator can increase or decrease the amount of colorant being disbursed and the intensity of the end product's color. The Beast Recycler is available in four models from 275-1000 hp, towable or self-propelled.

GYRO TRAC, INC.

GyroTrac offers low-ground-pressure, high-speed mulching machines that leave soil structures intact, eliminating burning, erosion & runoff pollution. High & low flow cutter-head attachments will turn virtually any enclosed-cab skid steer or compact track loader into a productive land clearing tool. The 140 hp GT-13XP's compact design navigates tight spaces, reaches high & has the power to mulch large trees. The 260 hp GT-25XP's wider stance, cutter-head, & heavy-duty undercarriage yield class leading terrain access & unmatched productivity against virtually any tree. The Toma-Ax Low Flow head is productive with 17-25 gpm and 60-100 hp. The Toma-Ax 500HF head is productive with 30-50 gpm and 80-140 hp.

GyroTrac, USA; Phone: (866) 800-3900 ; Web: www.gyrotrac.com

LOFTNESS/U.S. ATTACHMENTS

Loftness offers a complete line of mulching heads in two different styles, Carbide Cutter and Timber Ax.
The Timber Ax uses sharpened blades turning up in front delivering a finer mulch in a one pass operation.
The Carbide Cutter uses carbide teeth turning down, allowing for 1 to 2 inches of ground engagement. Both machines are available in horsepower ranges from 50 to 300. Loftness also offers an auxiliary hydraulic oil cooler with auto reversing fans that will perform in the harshest environments.

For more information contact Loftness at 1-800-828-7624 or www.loftness.com

ROTOCHOPPER, INC.

Rotochopper manufactures & sells the CP-118 Wood Chip Processor, which is ideal for the arborist with too many chips on their hands. The CP 118 converts low-value chips into high-value colored or natural landscape mulch in one quick pass through the machine. In addition to the CP-118, Rotochopper also manufactures a complete line of horizontal grinders that are available in electric or diesel with infeed widths ranging from 24 to 66 inches and horsepower ranging from 75 hp to 750 hp. We also manufacture a mobile bagging machine that can bag almost anything imaginable, from dog food to sand.

Rotochopper, Inc.; 217 West Street; St. Martin, MN 56376

TCIA™
VOICE OF TREE CARE

Helping Crews Work SAFER and SMARTER® For Over 75 Years.

In the real world, one requirement that never changes is finding ways to help your crews work more safely. That's why Altec tree care equipment is rugged, reliable and designed with integral safety features. Our complete line of aerial devices and wood chippers is highlighted by our newest machine – the Altec LRV60-E70. It will help your crews work smarter and more efficiently. This unit combines 75 feet of working height and smooth maneuverability with the lowest cost of equipment ownership in the industry and unmatched financing options. For tree care units that help you work "Safer and Smarter®", call the company that builds them – Altec.

Altec Safety Technology

Altec ISO-Grip® with Interlock Guard • Altec SENTRY® Program • Standard Five-Function HOP
Altec Electronic Side Load Protection • Standard Outrigger Interlocks • Altec Rota-Float®
Altec Opti-View® Control Seat • Altec LMAP • Automatic Boom Stow • Fleet Management
